

31 August 2021

BlueRock Diamonds PLC ('BlueRock' or the 'Company')

58.6 carat diamond sold for USD585,000

Three large diamonds sold for USD1.1m

BlueRock Diamonds PLC, the AIM listed diamond producer, which owns and operates the Kareevlei Diamond Mine ('Kareevlei') in the Kimberley region of South Africa, is pleased to announce, in accordance with its announcement policy, the sale of three recently recovered gem quality stones of 58.6 carats, 21.6 carats and 14.3 carats. The stones were sold for USD585,000, USD268,000 and USD236,000 respectively for a total of USD1.1m.

Mike Houston, Executive Chairman said, *"We are delighted with the price achieved for each of these high-quality diamonds, which brought the total sales proceeds for the August tender to USD2.1m, far exceeding the previous highest monthly sale of approximately USD900,000. The average price per carat for the whole parcel was approximately USD800."*

"Furthermore, I am pleased to report that commissioning of the transformational new plant is proceeding to plan and I look forward to updating the market in due course."

Large stones recovered in 2021

| Date sold 2021 | Carats | Value USD000 | Value per carat USD000 |

Notes to editors:

BlueRock Diamonds is an AIM-listed diamond producer which operates the Kareevlei Diamond Mine near Kimberley in South Africa which produces diamonds of exceptional quality and ranks in the top ten in the world in terms of average value per carat. The Kareevlei licence area covers 3,000 hectares and hosts five known diamondiferous kimberlite pipes with a combined inferred resource of 10.4 million tonnes / 516,200 carats (February 2021); based on its planned production of 1 million tonnes per annum, this provides a minimum 10-year life of mine.
