

19 August 2019

**BlueRock Diamonds PLC ('BlueRock' or the 'Company')
Sale of 7.63 carat diamond for USD\$52,000**

BlueRock Diamonds plc, the AIM listed diamond mining company, which owns and operates the Kareevlei Diamond Mine in the Kimberley region of South Africa ("Kareevlei" or the "Project"), is pleased to announce that it has sold a 7.63 carat diamond for USD52,000 (USD6,815/carats), in the August tender.

This is the fifth diamond that has been sold this year at a price of in excess of USD50,000 realising a total sale price of USD500,000.

Mike Houston, Executive Chairman commented, "The continued and improving regularity of discovery of high-quality stones underpins the potential value of the Project and the effectiveness of our recent improvements in operational practises. I look forward to updating our shareholders on further developments at Kareevlei as we continue to implement operational initiatives to optimise the performance of the mine."

Notes to editors:

BlueRock Diamonds is an AIM-listed diamond producer which operates the Kareevlei Diamond Mine near Kimberley in South Africa which produces diamonds of exceptional quality and ranks in the top ten in the world in terms of average value per carat. The Kareevlei licence area covers 3,000 hectares and hosts five known diamondiferous kimberlite pipes. As at November 2018, it was estimated that the remaining Inferred Mineral Resource from the four kimberlite pipes (KV1, KV2, KV3 and KV5) represents a potential inground number of carats of 367,000.
