BlueRock Diamonds PLC ('BlueRock' or the 'Company')
Recovery of second diamond over 20 carats

BlueRock Diamonds plc, the AIM listed diamond mining company, which owns and operates the Kareevlei Diamond Mine in the Kimberley region of South Africa ("Kareevlei" or the "Project"), is pleased to announce that it has recovered a 20.72 carat stone of gem quality.

This is the second stone recovered from Kareevlei in excess of 20 carats. The previous stone was 24.98 carats and sold for USD190,000. The sale price of the current stone will be announced following the completion of the October tender.

Mike Houston, Executive Chairman commented, "I am highly encouraged by the recovery of yet another significant stone which is of a similar quality to a number of other larger stones that we have recovered recently. I look forward to updating the market on the sale price following the completion of the October tender."

Market Abuse Regulation (MAR) Disclosure - Certain information contained in this announcement would have been deemed inside information for the purposes of Article 7 of Regulation (EU) No 596/2014 until the release of this announcement.
